

JJ-6HHBT, 6" HELICAL HEAD BENCHTOP JOINTER

718600

The new JET 6" Benchtop Jointer provides a smooth and consistent cut surface thanks to its use of 14 carbide tipped Helical Head blades. Heavy duty cast iron tables and fully adjustable fence with locking stops make for a premium cutting experience. Features include a fully adjustable large cast iron fence, internal dust collection system and safety block and push stick.

FEATURES

- Front mounted toggle switch with removable safety key
- Highly visible scale for accurate depth of cut adjustments
- Includes 4 mounting brackets that secure jointer to benchtop
- Internal blower motor moves dust and chips away from motor and cutter head
- Large dust collection bag with quick empty zipper
- Powerful 1HP 15 amp motor turns the cutter head at 10,000 RPM
- Safety push block and push stick included
- Six inch jointing capacity in small footprint
- Toggle switch with removable safety key
