INSTALLING THE FIXTURE

1. Dig a hole in the ground approximately 4" wide by 12" deep. When working with hard soil, use a rubber mallet to drive the Impaler or stake into the ground.
2. Lay the power cable from the fixture into the threaded hole on the Impaler or stake.
3. Use a level to ensure the top of the Impaler or stake is level with the ground.
4. Screw the fixture into the Impaler or stake.
