MOVENTO

MOVENTO is the latest advancement in concealed runner technology. It brings together all of the features, innovations and benefits that Blum has developed since first manufacturing drawer runners in the 1960s.

Standard with soft close BLUMOTION, MOVENTO runners provide multiple solutions with a single runner. Combine with our motion technologies, TIP-ON BLUMOTION or SERVO-DRIVE, to ensure drawers open with a light press of the front and close softly and quietly.

Fascinating technology

The integrated rack and pinion system keeps the drawer moving smoothly and evenly every time it opens. This proven technology has been trusted for years, and with a wide range of lengths and load ratings, cabinetmakers can rely on one runner for many different applications. With their high load capacity, MOVENTO runners allow for deep or wide drawers that will hold up to 170 pounds and still open and close with ease.

BLUMOTION

BLUMOTION adapts to different weights and closing forces to give a smooth and silent close every time. Whether it is a small top drawer or a wide deep drawer, BLUMOTION guarantees the soft-close you have come to expect from Blum.

TIP-ON BLUMOTION

TIP-ON BLUMOTION for MOVENTO creates a simple solution for touch-to-open drawers. A non-electrical drive unit is added to the runner, allowing the drawer to open with a light press on the drawer front. A fluid push closes the drawer with soft-close BLUMOTION.

SERVO-DRIVE

SERVO-DRIVE enables drawers to open automatically with just a touch of the drawer front or with a light pull of the handle. This unique feature is based on an electrical drive unit that, once activated, opens the drawer for you.

ORGA-LINE

With this adjustable organization system, everything is stored where it can be seen. The customizable system is made of stainless steel trays and dividers, making it easy to adapt to any drawer configuration. The trays are also dishwasher safe, so keeping them clean is easy.

Standard lengths

MOVENTO series runners are based on the American standard 3" cabinet depth system, therefore runner lengths are in 3" increments. MOVENTO runners are available for drawers from 12" to 30" in length.

Heavy load capacity

The cabinet profile has increased stability along the length of the runner. Even wide, heavy drawers experience a smooth running action, thanks to a high dynamic load capacity of 110 and 155 lbs.

Pull-out shelf lock

The discreet and space-saving mechanism securely holds the pull-out shelf in place when open. By creating additional, flexible shelf space, users can mobilize kitchen gadgets and appliances, making them easy to use and put away again in seconds.

Waste/recycle

MOVENTO waste/recycle sets are the premium solution for waste/recycle cabinets in the kitchen. Pre-assembled bottom mount sets are available for the most popular waste/recycle cabinet sizes.

ISO 9001

Blum, Inc. is ISO 9001 certified which means that you are assured of consistent quality in every Blum product.

ANSI/BHMA

All Blum runners meet or exceed ANSI/BHMA A156.9 Grade 1 requirements. Contact your local Blum representative for more details.

General information

All Blum hardware undergoes strict quality control procedures through all stages of production. Blum hardware is designed for cabinets and cabinet components made from wood, melamine or MDF. Careful attention must be paid to installation and operating instructions when using Blum hardware (see catalogs and instruction sheets for all technical information). The manufacturer must decide on the screws or attachment methods to suit the material being used (i.e. wood, melamine, etc.). The hardware must not be exposed to acidic or corrosive materials (i.e. some household cleaning solutions). To ensure that Blum hardware functions correctly, it must be kept clean and undamaged. For any additional information please contact your Blum representative. Anyone selling Blum hardware must ensure that their customer is aware of any relevant information given in this catalog.

Conditions of sale and delivery

All deliveries and services are based on the “general conditions of sale” which are available upon request. The technical presentations and dimensions in illustrations are non-binding. We reserve the right to make changes to specifications at any time. We do not accept any responsibility for any errors which may occur in the production of this catalog.

Complete runner system

- Full extension concealed runners standard with BLUMOTION soft-close
- Integrated synchronization keeps the drawer moving smoothly
- Designed to be used with TIP-ON BLUMOTION or SERVO-DRIVE touch-to-open system
- Zinc-coated steel
- Concealed roller carriage with permanently lubricated synthetic rollers
- Available in standard and heavy duty
- Designed for drawers using 1/2" to 5/8" drawer material thickness
- Bottom mount holes on 763, standard duty
- Elongated holes for depth adjustment
- Tool-free tilt adjustment
- Tool-free height adjustment
- Tool-free rear side-to-side adjustment
- Lateral stabilizer for wide applications

Locking devices

- Stamped steel base with synthetic, spring-loaded release levers
- Captive right device, self-aligning left device
- Self-adjusting drawer length tolerance
- Tool-free front side-to-side adjustment
- Available for narrow drawers

TIP-ON BLUMOTION

- Enables MOVENTO drawers to be opened with just a light touch of the drawer front and retain BLUMOTION soft closing action
- Fully mechanical motion
- Can be used with or without pulls

One runner for all applications

MOVENTO runners are designed for the American 3" increment cabinet depth system. Installation is possible in face frame, frameless or blocked-out face frame applications. Combine MOVENTO with TIP-ON BLUMOTION or SERVO-DRIVE to open drawers with a single touch.

Load capacities

- 125 lb static for MOVENTO 763 standard duty series
- 135 lb static for MOVENTO 769R heavy duty series
- 170 lb static for MOVENTO 769, heavy duty series

Drawer components

NOTE: For 763, and 769, series, rear brackets and sockets cannot be used. Cabinet sides must be blocked-out flush with the inside of the face frame.

Locking devices

Locking devices allow easy insertion and removal of drawers.

- 1 Rotate side-to-side adjustment left or right equally on both locking devices. Drawer front moves in the same direction as rotation.

T51.7601.xx with side-to-side adjustment

Diagram illustrating the side-to-side adjustment of the drawer front. The main view shows the drawer front being moved left (L) or right (R) along the rail. An inset shows a close-up of the adjustment mechanism with a central screw and a label '0' indicating the center position.

NOTE: Not available on T51.0501.20 narrow locking devices

- 2 After front side-to-side adjustment is made with the locking devices, rotate the rear side-to-side adjustment left or right to re-align the back of the drawer box with the front. Drawer back moves in the same direction as rotation.

Maximum **1.5** (1/16") to left or right (tool-free)

Press up on adjustment tab and push toward back of drawer

NOTE: Height adjustment available on all MOVENTO runners

Rotate the tilt adjustment lever on the rear of each runner to tilt the top of the drawer front forward

Maximum **5 (3/16")** rise of drawer back (tool-free)

Not for use with TIP-ON BLUMOTION

NOTE: If using 15/32" or 1/2" drawer thickness without T59.K010M, **13** (1/2") text should be visible instead

Step 1

Measure cabinet opening

Cabinet opening measurements are needed to determine drawer box size.

NOTE: In face frame applications, cabinet sides must be blocked-out flush with the inside of the face frame

Frameless cabinet

Frame cabinet

Step 2

Preparing drawer boxes

Build drawers according to the specifications given for the MOVENTO runners you chose and the measurements determined in Step 1. Install appropriate locking devices and bore holes to accept rear hooks.

Step 3

Attach runners to cabinet

Using the mounting information given for the MOVENTO runners you chose, mount the MOVENTO runners in the cabinet.

Step 4

Insert drawers

Extend the runners fully. Place the drawer on the runners and close. The locking devices automatically engage with the runners. Make adjustments if necessary.

Step 5

Drawer removal

Squeeze orange handles on locking devices and pull drawer straight out and up.

Rear notching

Dimensions

Drawers must be notched in the back to accommodate MOVENTO runners

***NOTE:** Minimum notch width is 125 (4-15/16") when using TIP-ON BLUMOTION

Rear view

The notches must be flush with the drawer sides and bottom

Option – no notching

Make the back panel shorter and extend the drawer bottom to the back of the drawer

Rear boring

Dimensions

Rear view

Drawers require Ø6 holes bored on each side of the back panel to accept the hooks on the back of MOVENTO runners

Boring

- 1 Place template over the drawer side
- 2 Position template so that the center rib rests against the inside face of the drawer side
- 3 Set stop collar on Ø6 bit so that it will bore 10 (13/32") deep
- 4 Hold template firmly and bore hole
- 5 Repeat on other side

NOTE: Using the T65.1600.01 Concealed runner template is highly recommended

Locking devices

Installation

- 1 Position the Ø2.5 drill bit into the extension chuck so that it will bore 10 (13/32") deep
- 2 Place template into the front corner of the drawer
- 3 Bore two holes and repeat on other side
- 4 Attach locking devices with #6 x 5/8" deep thread wood screws (606N or 606P)

NOTE: The mounting screws must go in at a precise angle and the locking device must fit flush to the drawer bottom to ensure proper function of the complete drawer system

NOTE: Using the T65.1600.01 Concealed runner template is highly recommended

Drawer box specifications

NOTE: Drawer side material thickness may vary. Accurate measurement of drawer side material thickness should be used when calculating outside drawer width using the table below. Inside drawer width **must** equal opening width minus 42 (1-21/32") for MOVENTO runners to align and function optimally.

Calculating outside drawer width

For drawer side thickness	16 (5/8")	15 (19/32")	13 (1/2")	12 (15/32")
Deduct from opening width	10 (13/32")	12 (15/32")	16 (5/8")	18 (23/32")

Example: For 21" opening width and a 5/8" thick drawer, 21 minus 13/32" = 20-19/32" drawer width

Simple, tool-free assembly

The TIP-ON BLUMOTION unit can be assembled tool-free.

Reliable function

TIP-ON BLUMOTION remains functional at all times. Even if the drawer is manually pulled open or pushed closed, TIP-ON BLUMOTION works great the next time it's needed.

TIP-ON BLUMOTION for MOVENTO

TIP-ON BLUMOTION for MOVENTO provides flexibility by offering the TIP-ON BLUMOTION unit in four different strengths.

Use the table below to select the appropriate unit and trigger by finding your drawer runner length and estimating the total weight of the drawer when loaded. A synchronization rod is recommended for all cabinet widths for optimal function.

MOVENTO	TIP-ON BLUMOTION units and triggers

NOTE: Wider notches required to accommodate TIP-ON BLUMOTION units

Do not use bumpers, as this can inhibit the function of TIP-ON BLUMOTION when the drawer front is pressed.

Transportation
To prevent damage to pre-assembled cabinets during transportation:

		
a) clamp a spacer between front and cabinet or	b) adjust the front gap to 0 mm or NOTE: Front gap will have to be readjusted during installation	c) transport without trigger

NOTE: Using the 65.5632.US front gap template is highly recommended. Adjust left and right runner.

NOTE: If using 15/32" or 1/2" drawer thickness without T59.K010M, 13 (1/2") text should be visible instead

Application

Description

- Synchronizes left and right runners to prevent drawer racking and increases lateral stability
- Ideal for wide applications using MOVENTO
- Does not increase load capacity
- Can be used with TIP-ON
- Optional—recommended when the drawer is more than twice as wide as it is long

Specifications

- Frameless and blocked-out face frame applications
- 305 (12") to 686 (27") length drawers**

Lateral stabilizer set

Set includes:

- 1 Pinion housing (qty 2)
- 2 Gear rack with locating tabs (qty 2)
- 3 Linkage rod, length **1051** (41-3/8")
- 4 Pinion adapter (qty 2)
- 5 Locking clip (qty 2)

Space requirements

- Maximum opening width **1369** (53-29/32")
- Minimum inside cabinet depth = setback + runner length + **18** (23/32")

NOTE: MOVENTO runners will sit **2 (3/32")** higher when using the lateral stabilizer in bottom mount applications and may have to be raised for some bottom mount drawer applications using SERVO-DRIVE

Step 1 – Attach left and right pinion housings

- 1 Insert locating pins into MOVENTO runner
- 2 Press orange locking clips to lock into place

**Step 2 – Slide gear racks into pinion housings****Step 3 – Install gear racks**

- 1 Insert locating tabs into cut-outs on bottom of runners
- 2 Slide backward to lock into place

**Step 4 – Cut gear racks to length****Step 5 – Cut linkage rod to length****Step 6 – Press pinion adapters into linkage rod****Step 7 – Install linkage rod assembly**

- 1 Close drawer runners
- 2 Slide right pinion adapter onto right pinion
- 3 Slide linkage rod assembly left onto left pinion

**Step 8 – Install locking clips**

Install locking clips on both adapters

Application

Description

- For TANDEM 563 H/., and all MOVENTO runners
- Can be combined with TIP-ON BLUMOTION
- Two-sided locking for secure hold
- Can be released with one hand from either side of the shelf
- Easy installation with self-aligning components
- No change to runner installation
- Can be easily integrated into the existing manufacturing processes
- Designed for use in frameless or blocked-out face frame applications

Application

Description

- Pre-assembled bottom mount set
- MOVENTO heavy duty full extension concealed runners with BLUMOTION
- For 12", 15" and 18" minimum opening widths
- **13 (1/2") to 16 (5/8")** drawer thickness
- **19 (3/4")** over extension
- For face frame and frameless applications
- Tool-free side-to-side, height and tilt adjustment
- Maximum **6 (1/4")** cabinet bottom recess
- 135 lb static load capacity
- Compatible with TIP-ON BLUMOTION and SERVO-DRIVE

NOTE: Lateral stabilizer cannot be used with 769R series runners

Optional SERVO-DRIVE waste/recycle set

SERVO-DRIVE is a low-voltage electric touch-to-open and open assist solution.

Set includes:

- Drive unit (pre-attached)
- Double bottom bracket with #6 x 1" wood screws (qty 2)
- Adapter plate
- 110 volt plug-in power supply with six feet of universal cable
- Screw-on distance bumpers (qty 4) with #6 x 5/8" wood screws for installation (qty 8)
- INSERTA cable connector
- Cable end protectors (qty 2)
- Cable clips (qty 4)
- Installation template, instructions and user manual

Optional TIP-ON BLUMOTION for MOVENTO waste/recycle set

TIP-ON BLUMOTION is a fully mechanical touch-to-open solution for waste/recycle sets.

Set includes:

- Heavy duty L5 TIP-ON BLUMOTION units and triggers
- TIP-ON BLUMOTION synchronization rod, pre-cut per width
- TIP-ON BLUMOTION synchronization adapters*
- Instruction sheet

- Minimum opening width 281 (11-1/16")

Maximum drawer thickness **16 (5/8")**Lengths available **21"**Static load capacity **135 lb****Drawer box specifications****Front view**

NOTE: Drawer side material thickness may vary. Precise measurement of drawer side material thickness should be used when calculating outside drawer width using the table below. Inside drawer width **must** equal opening width minus 42 (1-21/32") for MOVENTO runners to align and function optimally.

Calculating outside drawer width

For drawer side thickness	16 (5/8")	15 (19/32")	13 (1/2")	12 (15/32")
Deduct from opening width	10 (13/32")	12 (15/32")	16 (5/8")	18 (23/32")

Example: For 21" opening width and a 5/8" thick drawer, 21" minus 13/32" = 20-19/32" drawer width

NOTE: T59.K010M spacers, available separately, required for 15/32" and 1/2" thick sub-fronts only

NOTE: Orange dots indicate pre-mounted screw locations. All four are required to meet specified load capacities.

ORGA-LINE for top drawers

With this adjustable organization system, everything is stored where it can be seen. Specifically designed for MOVENTO, it fits in the space you have and can be rearranged to store the items you need. The customizable system is made of stainless steel trays and dividers, making it easy to adapt to any drawer configuration. The trays are also dishwasher safe, so keeping them clean is easy.
